Three Steps to Financial Success

1. Define your **goals** and identify why you want to achieve them
2. Partner with a competent and caring **team** to help achieve your goals
3. Understand the importance of *protecting* and *growing* your personal **assets**

INSURE
(Protect Assets)

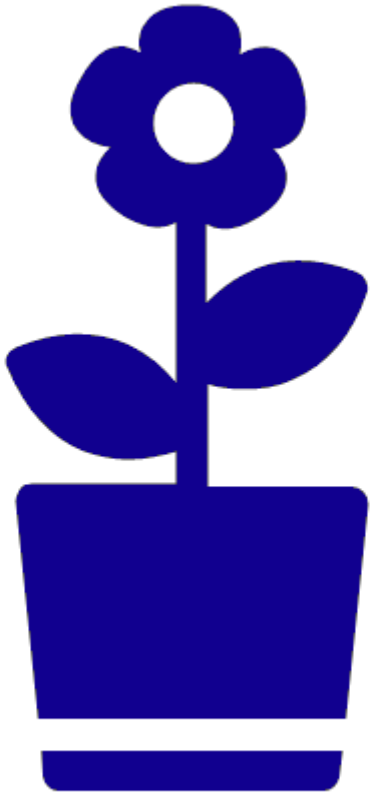

For educational purposes only. The firm does not sell insurance but may refer clients to licensed insurance persons appropriately as a courtesy.

KEY TAKEAWAY:

Confirm you have proper **insurance coverage** to *protect* your assets

Insure | 4 Actions to Protect Your Assets

1. **Complete estate plan** (will; power of attorney; trust)
   - Identify who will own your assets and make decisions for you
   - The government will decide if you do not have proper documentation ahead of time
2. **Acquire adequate insurance** (health; life; umbrella; specialty)
   - Even one unexpected accident or health issue could dramatically hinder your financial outlook
   - Plan for adequate coverage rather than the least expensive policy
3. **Identify long-term care plan** (insurance policy or family care)
   - Do you plan to take care of your parents or delegate that to someone else?
   - The average cost for long-term care in Colorado is several thousand dollars per month
4. **Support Medicare enrollment** (fill gaps in coverage)
   - MediCARE alone does not cover some significant areas like exclusive assisted living
   - MediCAID qualification may require a “spend down” of many personal assets (forced poverty)

INVEST
(Grow Assets)

KEY TAKEAWAY:

Confirm you have proper **investment management** to *grow* your assets

Invest | 4 Actions to Grow Your Assets

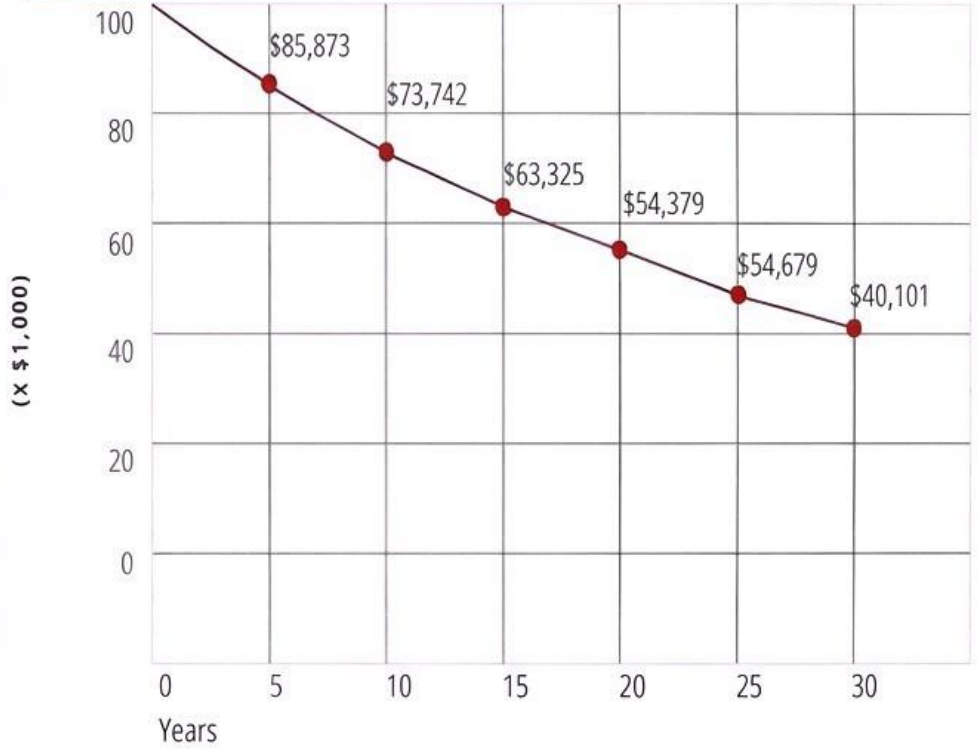

1. **Activate online financial plan** (assess expense needs; project future income)
   - Analyze and monitor your monthly cash flow to balance expenses with income
   - Estimate income from historical investment performance for future expenses
2. **Set up personal portfolio management** (general; emergency fund; IRA)
   - Establish auto-deposits into a balanced investment portfolio based on your goals and time horizon
   - Keeping your savings in cash can actually lose value over time if the yield is lower than inflation
3. **Maximize employer retirement matching if applicable** (401k; 403b)
   - Identify and contribute the amount applicable to maximize any employer matching
   - Choosing to not maximize employer matching is essentially forfeiting “free money”
4. **Start an education fund** (increase income potential or support family)
   - Support the opportunity for a higher paying job with higher education as needed
   - Ease the burden or impact of education costs by increasing the starting principal

Why Invest Now?

- **Compound returns can support financial goals** and grow personal wealth
- **Delaying could cause significant shortages** from missed gains and lost time
- **Keeping assets in cash guarantees lost value** if return is less than inflation

Inflation Significantly Erodes Purchasing Power Over Time

How the Power of Compounding Can Work for You

	Jack	Jill
Starts Contributing at Age	25	25
Years of Contributions	30	40
Monthly Deposits	$1,000	$1,000
Total Contributions	$360,000	$480,000
Total Interest Earnings	$1,140,295	$3,034,281
Total Retirement Savings	$1,500,295	$3,514,281

Assumption. Savings price at a hypethetical 8% rate of return, compounded monthly. Your actual rate of resum may vary.

Periodic investing does not assure a profit and does not protect against less in declining markets.

Investing Should be a Three-Stranded Cord

- **Tax-Advantaged Retirement Account** (Roth or Traditional IRA as qualified):
  - Maximize annual contribution to an IRA (retirement)
  - Select Roth IRA or convert Traditional for qualified tax-free withdrawals
- **Non-Retirement Account** (any goal or timeline):
  - Customize with multiple portfolios to support various goals and timelines
  - Support maximum flexibility with no early withdrawal or tax penalties
- **Employer Retirement Plan** with Company Matching (if available):
  - Initially contribute up to the company match to maximize “free money”
  - Roll over prior employer plans to an IRA for convenience and performance potential

Note: Higher-performing investments in a taxable account can outweigh a retirement account even with matching

Reasons to Use Exchange Traded Funds (ETFs)

- Invest in **leading assets** (stocks, bonds, real estate) with **limited capital**
- **Diversify risk** like mutual funds with **advantages such as tax efficiency**
- Benefit from **often lower fund fees** resulting in **higher overall returns**

Schutte Financial has a top-performing growth ETF over 15 years per Google Finance.

Your Future *With* or *Without* Schutte Financial

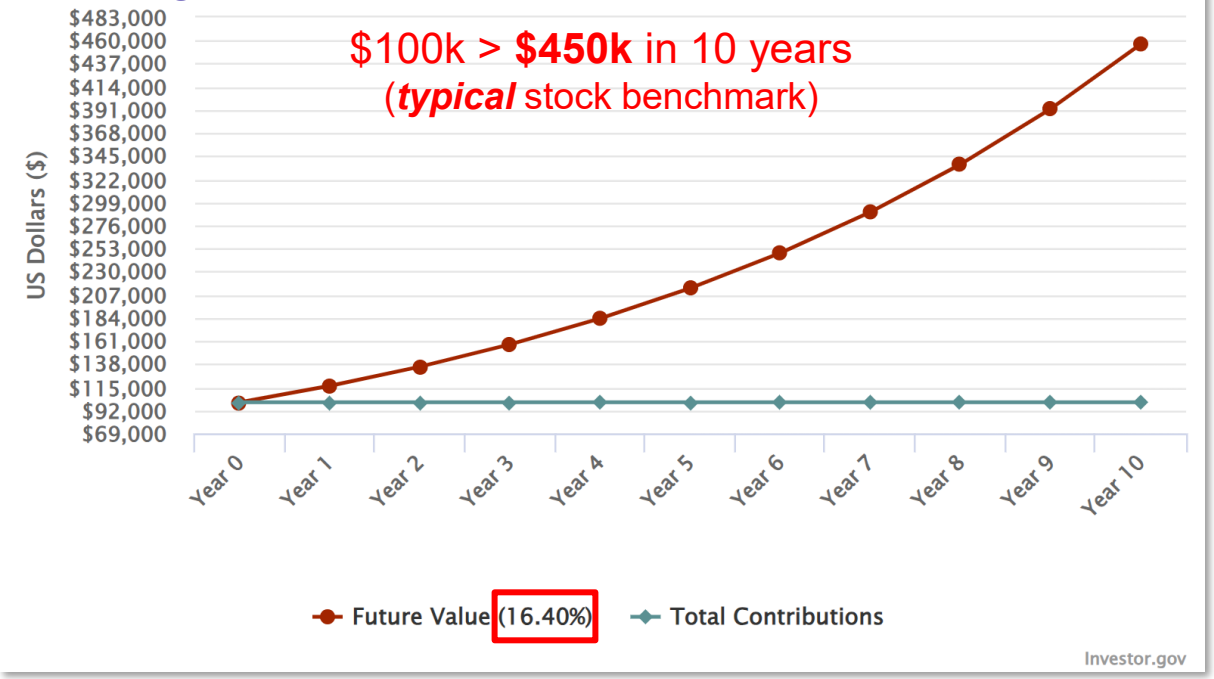

Without Schutte Financial

- **Mediocre return** from benchmarking performance
- **Time and stress** from managing personal investments
- **Risk of underfunding** financial goals from missed gains

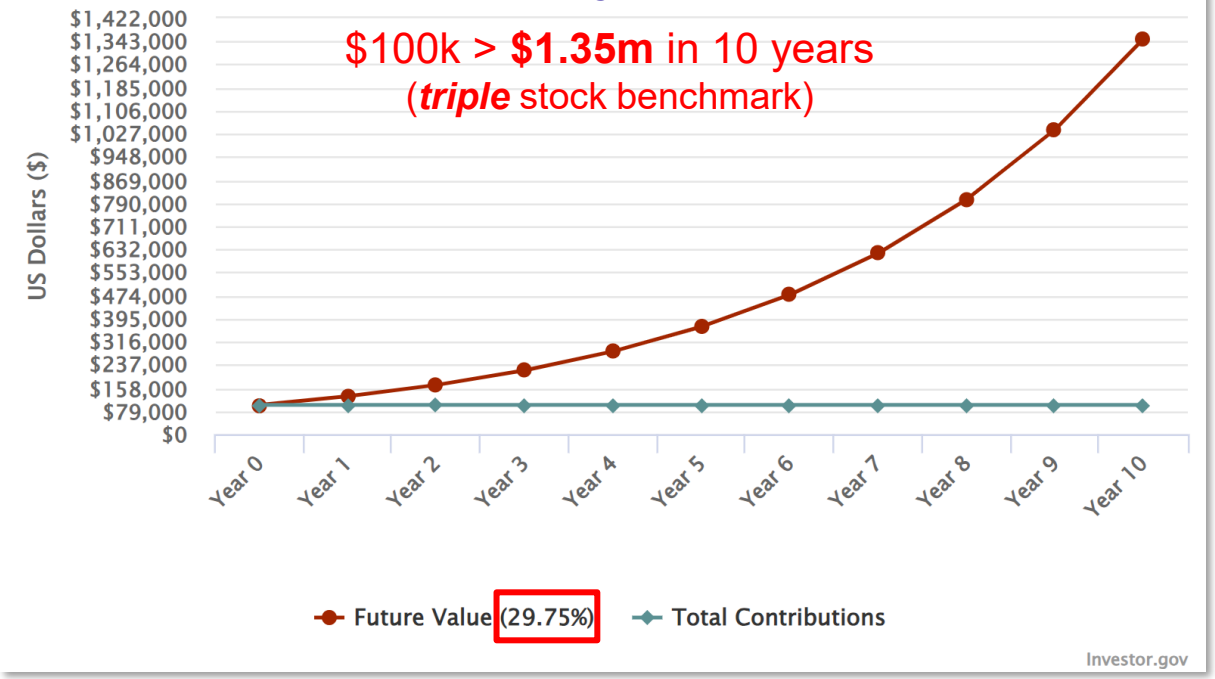

With Schutte Financial

- **Maximum return** potential from leading performance
- **Personal freedom** from professional management
- **Confidence in funding** financial goals from past data

No information displayed in this presentation shall constitute an offer to sell, or a solicitation of an offer to buy or subscribe for, any interests, shares or other securities to the public, including, but not limited to, fund interests of the Fund or any subsidiary entity managed by Schutte Financial. Schutte Capital does not provide financial advice in any capacity to the Fund or limited partners of the Fund. Accordingly, information displayed in this presentation should not be interpreted as investment advice. Any information regarding past, present, or future performance of the Fund or any subsidiary entity managed by Schutte Financial, or any security, is provided for informational purposes only and in no way represents an expectation of future performance. Schutte Capital has not been and does not presently intend to become registered under the U.S. Investment Company Act of 1940, as amended (the “Investment Company Act”), and investors will not be entitled to the benefits of the Investment Company Act. In addition, the shares of Schutte Capital have not been, and do not presently intend to be, registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”). Any investment is subject to risk, and alternative asset vehicles such as hedge funds have an increased degree of risk that is not suitable for the majority of investors and are intended only for Accredited Investors as that term is defined by the Securities and Exchange Commission. The value of assets managed in any fund that Schutte Financial is the General Partner or Manager to may go down as well as up and may decline to a value of zero. Leveraged ETFs in the Fund are typically held longer than one day in line with the trading strategy of the Fund, which differs from the objective defined in the ETF prospectus or other literature and may deviate from a daily reset intended by the ETF. Risk is managed, in part, with a calculated stop loss. The Company makes no projection of positive future performance of the Fund, whether directly or implicitly. Past performance of the Fund, over any timeframe, is not a guarantee or projection of future returns. Prospective investors are advised to consult a FINRA licensed financial advisor before making any investment decision and should be aware that they may not recover the amount invested. INVESTING **SMARTER**

DANIEL SCHUTTE, MBA
Founder, Schutte Capital

With knowing people who were devastated by the dot-com Tech Crash of 2000, and being personally impacted by the Housing Crash of 2008, I wanted **more than a conventional buy-and-hold approach** to investing. After many years of researching, synthesizing, and testing, I developed a proprietary trading algorithm to **capture market trends** yet **avoid catastrophic dips**, while disregarding the noise of novice day traders. The strategy nearly **doubled my real account** with initial live testing in 2019. Serving as evidence that the approach wasn't random, it completely avoided the COVID Crash in 2020, then nearly doubled my account for the second year in a row on the upswing. From there, I founded Schutte Capital as our accelerated fund in 2021, which was awarded **Hedge Fund of the Year** for its strategy class **based on top returns** with **performance data from Bloomberg.** For over 5 years, our strategy has been enhanced with backtesting to the dot-com crash from 2000-2002, which actually shows a profit despite the stock market plunge. I'm grateful and excited to help others with a smarter alternative to **invest with confidence** despite the news headlines and **provide for those they love.**

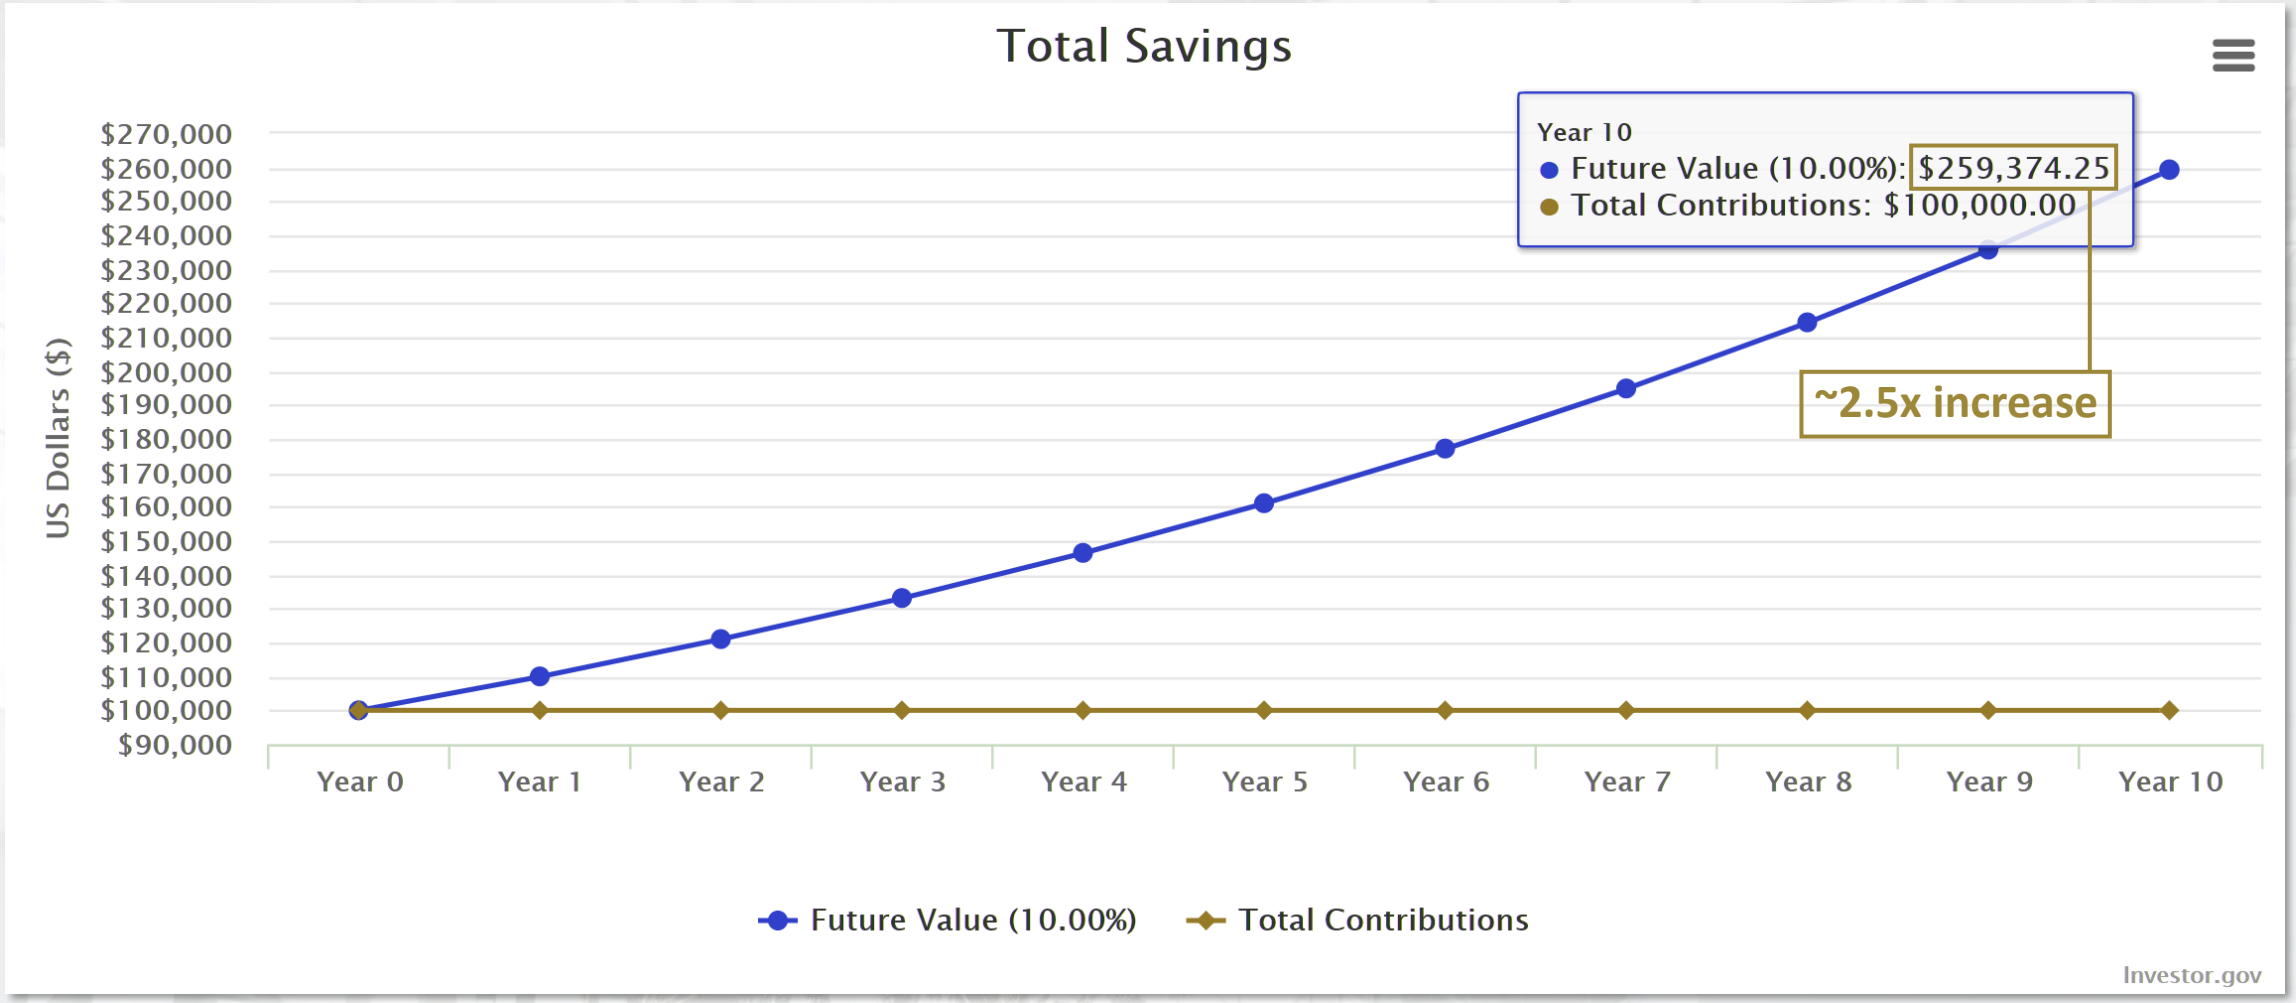

SCHUTTE CAPITAL FUNDS

Systematic Investing with *Less* Risk and *More* Potential Returns

Schutte Capital is a **systematic investment fund** that consistently operates a time-tested algorithm based on **objective data**. Risk management includes a **calculated stop-loss** and **fundamental diversification**. The quantitative and **sustainable allocation** method can harvest potential gains **more efficiently** from natural market trends than conventional investing.

FUND **SUMMARY**

A Smarter Way to Invest

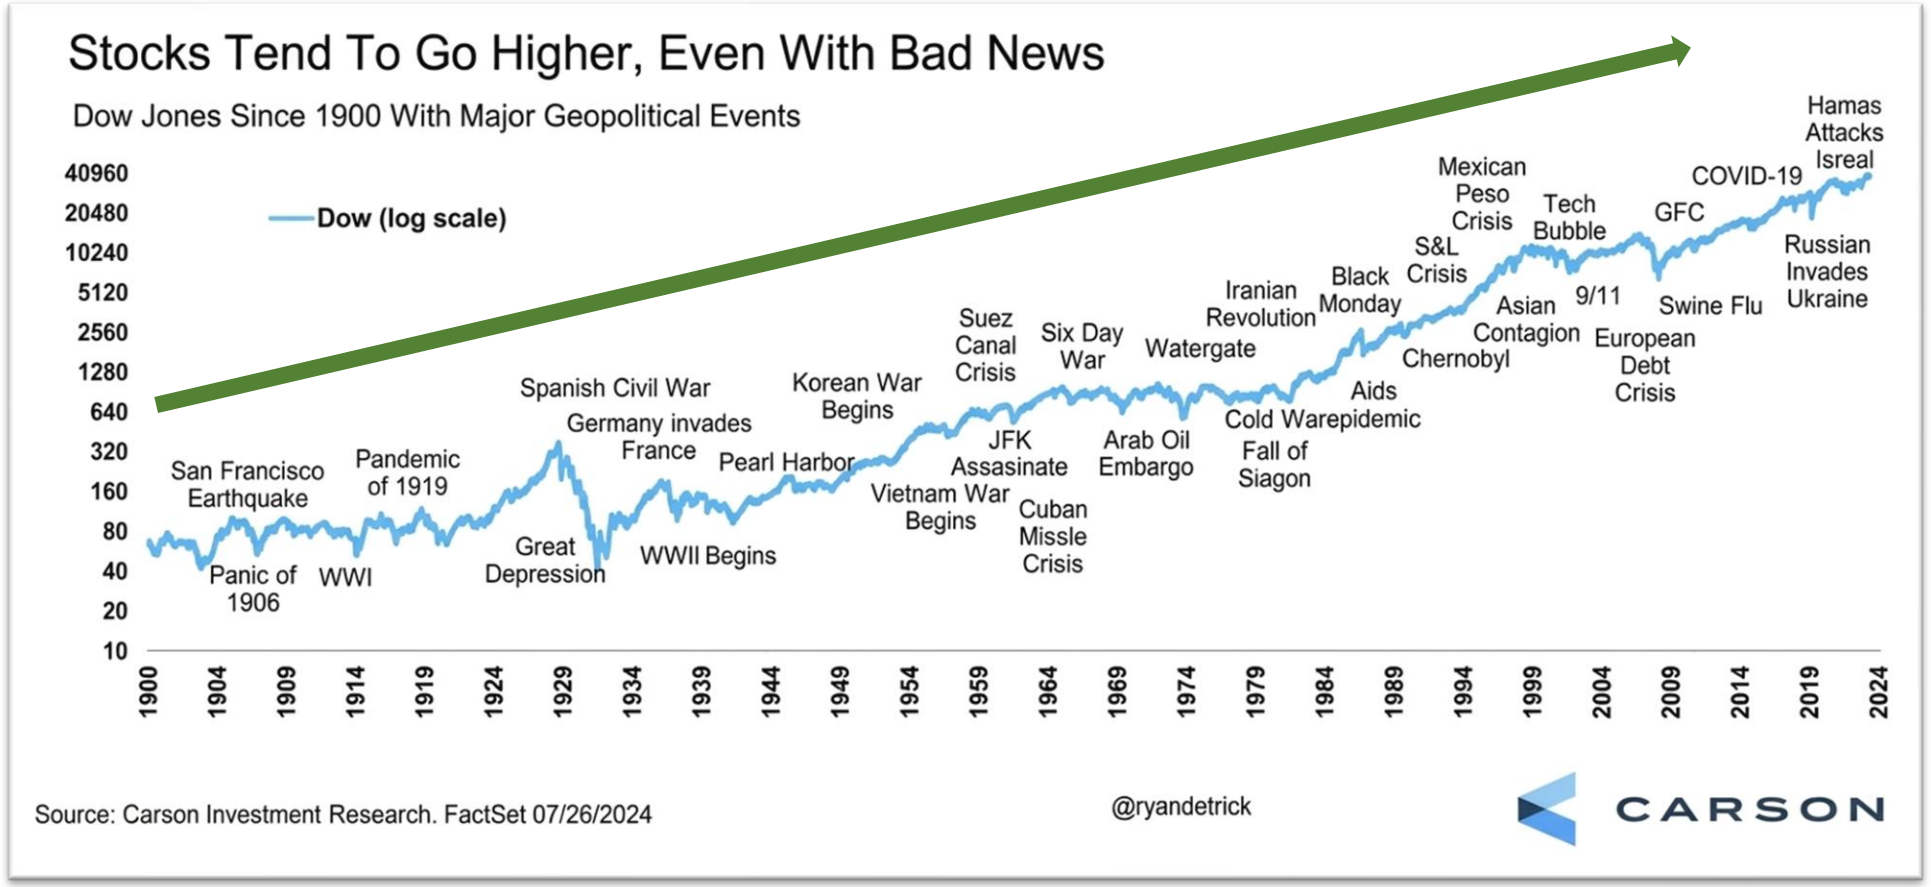

Summary: Proverbial eggs are placed in **100 *different* baskets** (ETF), **carried *faster*** (leverage without borrowing) yet ***more*** **carefully** (strategically with stop-loss).

- ✓ **Leverage a diversified blue-chip ETF**
  Invest in 100 top stocks with multinational companies across 10 sectors
- ✓ **Reduce downside impact to mitigate risk**
  Support principal preservation through a calculated stop-loss for exit in crashes
- ✓ **Smartly engage the market consistently**
  Capture uptrends strategically with objective entry signal after qualifying dips

Clients often find it suitable to hold a majority of their assets in *Schutte Capital* as the best choice for investing with intelligence.

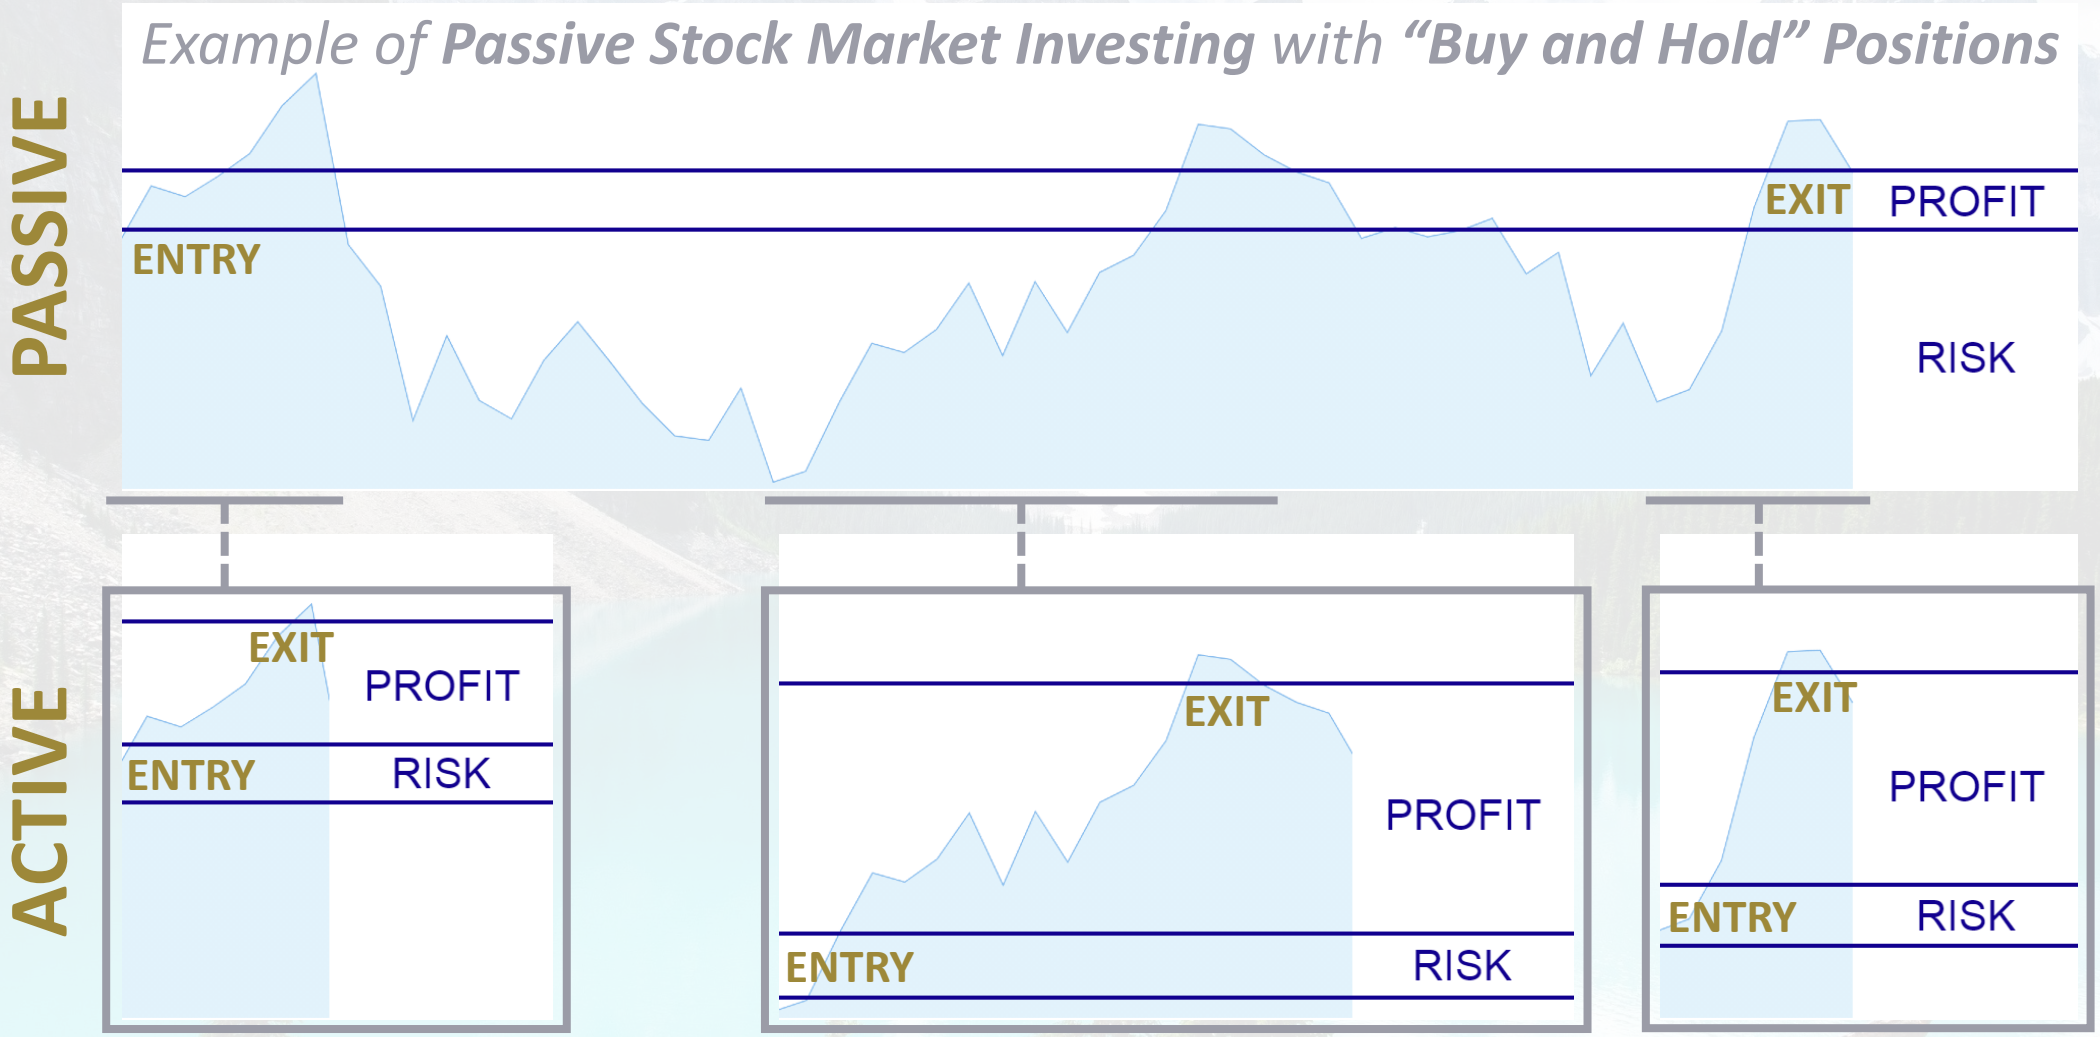

HISTORICAL **SUSTAINABILITY**

Schutte Capital captures natural market trends with a long-only strategy.

Active Management for **Higher Potential** with **Less Positional Risk**

Schutte Capital targets uptrends instead of holding positions through crashes.
